Mal søknad Britiske Myndigheter - Application for Consent to conduct Marine Scientific Research				Standard	
Versjon: 1.02	Opprettet: 11.12.2013	Skrevet av: BTC	Godkjent av: KRR	Gjelder fra: 11.12.2013	Sidenr: 1 av 6

Application for Consent to conduct
Marine Scientific Research

Date: _____ 12. Februar 2016 _____

1. General Information

1.1 Cruise name and/or number: 2016626

1.2 Sponsoring Institution(s):	
Name:	Department of Biology, University of Bergen
Address:	Thormøhlensgt. 53B, N-5020 Bergen
Name of Director:	Anders Goksøyr

1.3 Scientist in charge of the Project:	
Name:	Arne Johannessen
Country:	Norway
Affiliation:	Dr.
Address:	Department of Biology, University of Bergen, Thormøhlensgt. 53B, N-5020 Bergen, Norway
Telephone:	+47 55584400
Fax:	+47 55584450
Email:	Arne.johannessen@uib.no
Website (for CV and photo):	http://folk.uib.no/nfiaj/

1.4 Entity(ies)/Participant(s) from coastal State involved in the planning of the project:	
Name:	
Affiliation:	
Address:	
Telephone:	
Fax:	
Email:	
Website (for CV and photo):	

2. Description of Project

2.1 Nature and objectives of the project:
<p>Education and Training of marine fisheries scientists and students (cruise integrated in a subject (BIO 320 – Ocean science) provided by the University of Bergen).</p>

--

Mal søknad Britiske Myndigheter - Application for Consent to conduct Marine Scientific Research

2.3 Relevant previous or future research projects:
None

2.4 Previous publications relating to the project:
Student cruise reports

3. Geographical Areas

3.1 Indicate geographical areas in which the project is to be conducted (with reference in Latitude and longitude in decimal degrees, including coordinates of cruise/track/way points/sampling stations). Please provide coordinates in a separate excel spreadsheet.
The cruise study area is the northern North Sea, limited by 58 - 62°N and 02°W - 09°E (See also Figure 1). Positions of trawling stations will be selected according to fish distribution.

3.2 Attach chart(s) at an appropriate scale (1 page, high-resolution) showing the geographical Areas of the intended work and, as far as practicable, the location and depth of sampling Stations, the tracks of survey lines, and the locations of installations and equipment.
See attached Figure 1 with planned cruise period

4. Methods and means to be used

4.1 Particulars of vessel:	
Name:	Current name: "Dr. Fridtjof Nansen". To be renamed "Kristine Bonnevie" before start of the cruise.
Type/Class:	Research vessel
Nationality (Flag State):	Norwegian
Identification Number (IMO/Lloyds No.):	9062934
Owner:	Institute of Marine Research
Operator:	Institute of Marine Research, P.O. Box 1870 Nordnes, N-5024 Bergen
Overall length (meters):	56,75m
Maximum draught:	5,65m
Displacement/Gross Tonnage:	1444 gross ton
Propulsion:	Diesel
Cruising & maximum speed:	10-11 knots, 15 knots
Call sign:	LGWS
INMARSAT number and method and capability of communication (including emergency frequencies):	Telephone: +47 55906460/ 00 870 325 852 310 e-mail: TBA
Name of Master:	TBA
Number of Crew:	11
Number of Scientists on board:	19

4.2 Particulars of Aircraft:	
Name:	

**Mal søknad Britiske Myndigheter - Application for Consent to conduct Marine Scientific Research**

Make/Model:	
Nationality (flag State):	
Website for diagram & Specifications:	
Owner:	
Operator:	
Overall Length (meters):	
Propulsion:	
Cruising & Maximum speed:	
Registration No.:	
Call Sign:	
Method and capability of communication (including emergency frequencies):	
Name of Pilot:	
Number of crew:	
Number of scientists on board:	
Details of sensor packages:	
Other relevant information:	

4.3 Particulars of Autonomous Underwater Vehicle (AUV):	
Name:	
Manufacturer and make/model:	
Nationality (Flag State):	
Website for diagram & Specifications:	
Owner:	
Operator:	
Overall length (meters):	
Displacement/Gross tonnage:	
Cruising & Maximum speed:	
Range/Endurance:	
Method and capability of communication (including emergency frequencies):	
Details of sensor packages:	
Other relevant information:	

4.4 other craft in the project, including its use:

4.5 Particulars of methods and full description of scientific instruments to be used(for fishing gear specify type and dimension)		
Types of samples and Measurements:	Methods to be used:	Instruments to be used:
Water characteristics	Underwater unit with sensor for conductivity, temperature, pressure and oxygen	911 <i>plus</i> CTD system
Fish trawling	"Harstad" pelagic trawl (1600 meshesx100mm) Campelen 1800 bottom trawl(1800 meshes x 60mm) MIK juvenile trawl (2 m opening diameter)	Scanmar equipment
Echo surveying	Echo sounders (multibeam, keel mounted)	SIMRAD echosounders

4.6 Indicate nature and quantity of substances to be released into the marine environment:
--

None

4.7 Indicate whether drilling will be carried out. If yes, please specify:

No

4.8 Indicate whether explosives will be used. If yes, please specify type and trade name, Chemical content, depth of trade class and stowage, size, depth of detonation, frequency of Detonation, and position in latitude and longitude:

No

5. Installations and Equipment

Details of installations and equipment (including dates of laying, servicing, method and Anticipated timeframe for recover, as far as possible exact locations and depth, and Measurements):

6. Dates

6.1 Expected dates of first entry into and final departure from the research area by the research vessel and/or other platforms:

Dates for first entry and final departure planned at 13. September 2016 and 30. September 2016, respectively.

6.2 Indicate if multiple entries are expected:

Multiple entries within the period 13.-30. September 2016 may be expected.

7. Port Calls

7.1 Dates and Names of intended ports of call:

16. September 2016 at Lerwick port

7.2 Any special logistical requirements at ports of call:

No

7.3 Name/Address/Telephone of shipping agent (if available):

8. Participation of the representative of the coastal State

8.1 Modalities of the participation of the representative of the coastal State in the research Project:

No plans

8.2 Proposed dates and ports for embarkation/disembarkation:

9. Access to Data, Samples and Research Results

9.1 Expected dates of submission to coastal State of preliminary report, which should include The expected dates of submission of the data and research results:

Preliminary student report expected at 1. November 2016

9.2 Anticipated dates of submission to the coastal State of the final report:

Final report expected within 3 months after end of cruise

9.3 Proposed means for access by coastal State to data (including format) and samples:

Access to data and samples through Institute of marine research database.

9.4 Proposed means to provide coastal State with assessment of data, samples and Research results:

9.5 Proposed means to provide assistance in assessment or interpretation of data, samples And research results:

9.6 Proposed means of making results internationally available:

Available to the international scientific community through Institute of marine research

10. Other permits Submitted

10.1 Indicate other types of coastal state permits anticipated for this research (received or Pending):

NA

11. List of Supporting Documentation

11.1 List of attachments, such as additional forms required by the coastal State, etc.:
